CUE: "Because I've never met anyone else who feels rhythm in numbers."

Weightless, \( \frac{4}{4} = 112 \)

ISAAC:

Close and getting closer to a clear and gorgeous theory of gravity

Feeling kind of nervous and I'm tingling when I think of its beauty

Music by JOEL CHAPMAN

Lyrics by WESTON GAYLORD

Music Preparations by M.A-Hills (15-09-GM)
Trembling while assembling every line of logic leaving me breathless

Waiting to be satisfied when I solve it and I make it look effortless

Isaac keep your eyes on target. You're about to go down in history
Focus on the mathematics Isaac, go and make a discovery
Trust me that you

must be patient Make the leap and finish the proof and then everything will

end up where it should be; I'll be free to go home again

rit.
What are the laws of attraction?

What are the laws of attraction?

Are these the laws of attraction?

Are these the laws of attraction?
Now I don't know how to focus. I can see Sophie, you're everywhere.

Sunbeams in the window and the rustle of the apple tree over there.

Find me and remind me of the
way you fill the room when you visit
How, when you are
everything around me can I focus on physics
There, you made an error, be careful, Isaac
Science depends on you!

Music Preparations by M.A-Hills (15-09-GM)
Still, I get a thrill to see you puzzling and thinking your theory through.

See the answer be the man you don’t realize you are meant to be.

Isaac, when you solve it and I have to go home will you think of me?
What are the laws of attraction?

What are the laws of attraction?

Are these the laws of attraction?

Are these the laws of attraction?

Isaac taps along on his guitar

Gravity
14-Laws of Attraction

Isaac passes guitar to Sophie
Isaac plays chords
Isaac passes guitar to Sophie

Wait. That's it! If I am drawn to you And you are

everywhere I'm drawn to everything

Music Preparations by M.A-Hills (15-09-GM)
CUE: "Just like the apple out of the tree."
I have found the proof a universal theory of gravity!

You showed me the way. You were right next to me!

Everything is clear. You did it again.
I saved all of history! Now I know
Now my work will go down in history! Now I know

these are the laws of attraction
These are the laws
These are the laws
These are the laws

Music Preparations by M.A-Hills (15-09-GM)
laws of attraction!
